OBJECTIVE

A highly motivated and enthusiastic B.Tech student pursuing Computer Science and Engineering with specialization in Data Science at SRM Institute of Science and Technology, KTR Campus. Passionate about leveraging the power of Artificial Intelligence, Machine Learning, and Full Stack Web Development to build innovative, real-world solutions. Eager to apply strong programming skills in Python, Java, and JavaScript to contribute effectively in a dynamic, growth-oriented organization, while continuously learning and expanding expertise in emerging technologies.

EDUCATION

B.Tech — Computer Science & Engineering (Data Science)

SRM Institute of Science and Technology, KTR Campus

2023 – Present

Chennai, India

SKILLS

Programming Languages: Python, Java, JavaScript

Data Science & AI: Python, Pandas, NumPy, ML, NLP

Frontend: HTML, CSS, JavaScript, React.js

Tools: Git, GitHub, VS Code

Backend: Node.js, REST APIs

Others: IoT, Sensor Integration, Responsive Design

PROJECTS

AI Resume Analyzer | Python, AI/ML, NLP

- Built an AI-powered resume analysis tool using NLP to extract skills and match with job descriptions
- Provided actionable feedback to improve job application success with a user-friendly web interface

Smart Bin Sensor System | Python, IoT, Sensors

- Developed an IoT-based smart waste management system detecting bin overflow using sensors in real time
- Automated alerts to authorities to optimize collection routes and improve city cleanliness

Personal Portfolio Website | HTML, CSS, JavaScript

- Designed and deployed a fully responsive portfolio with modern UI, animations, and dark theme
- Live at: suruthitamilselvan.github.io/my-portfolio

CERTIFICATIONS

- **Python for Data Science** — Coursera
- **Web Development** — Coursera
- **Machine Learning** — Coursera
